# Welcome to Borneo

## A once in a lifetime experience in the heart of an Orangutan Sanctuary

**THE ONLY** fully sustainable and wildlife friendly orangutan conservation and reintroduction organisation in Borneo.

**POSITIVE IMPACTS** to your visit. Funds will go directly towards providing care for the orangutans and reforestation Projects.

**A ONCE-IN-A-LIFETIME** opportunity to deepen your orangutan knowledge and also observe the behaviour of rehabilitated individuals.

**IN THE HEART OF** secondary rainforest, our Samboja Lodge is a beautifully designed and sustainable eco lodge.

**By joining the Rainforest Retreat you play a vital role in assisting to bring orangutans back from the brink of extinction**

You get to deal directly with BOS partner organizations themselves instead of an external profit-oriented agency or broker. This ensures that your financial contribution to this program supports BOS Foundation and the orangutans under our care to 100%.

# ○ The Samboja Lodge

Samboja Lestari is an area of restored tropical rainforest near the city of Balikpapan in East Kalimantan, Indonesian Borneo. Established by BOSF, this 2,000-hectare orangutan sanctuary was created with the aim to rescue, rehabilitate and provide a safe haven for orphaned orangutans.

It also provides a source of ethical income and conservation education for local communities. Sustainability, conservation

and community development are at the core of our values.

By staying with us you not only support our conservation work, but also help us build an ecologically minded local community.

For an extra unforgettable experience, you can book one of two King Suites on the top floor of the lodge with an 180 degree view over the forest canopy.

## STANDARD ROOMS

## RAINFOREST VIEW

## TREETOP PANORAMIC VIEW

Our Standard Rooms are located across the ground and first levels of the lodge, and each is a generous 18 square meters of living space that serves as the perfect base for your rainforest experience.

## ○ Your activities could include...

### Orangutan Survival Sanctuary Experience

Our detailed tour will give you a once-in-a-lifetime opportunity to see orangutans living on sanctuary islands up close.

These orangutans are not able to be released back into the wild, but have been given the next best thing, which is a semi-wild environment where they can still climb trees and explore.

### Canopy Bridge

See the rainforest from a different perspective by walking along the Canopy Bridge, 30 meters above the forest floor.

A must-do activity!

### Rainforest Trek

Less than one hour drive from Samboja Lestari lies a protected forest area for orangutans, sun bears, proboscis monkeys, 242 species of birds (9 species of hornbills!) and more.

### Sun bear Sanctuary

The BOS Foundation also looks after a number of sun bears, the smallest bears in the world. You will get to see staff feed the bears but you will also get an opportunity to participate in building daily enrichment.

### Tree planting

There are more than 100,000 young trees of many varieties in our nearby plantation. Make your contribution to regenerating the forest for years to come by planting trees with our local staff.

### River Cruise

Following a 30 minute drive from Samboja Lestari, you will take a leisurely boat ride along the Sungai Hitam river to see highly endangered proboscis monkeys and a river side village of houses built on stilts.

### Beading workshop

The Dayak tribe of Borneo create beautiful beadwork in complex patterns and motifs that carry great cultural significance. Our intro to traditional beading is a great way to get to know local culture and learn a new skill.

# ○ Daily yoga by Florence Gould

Our specially chosen and skilled yoga teacher from England will take you through blends of movement, breath and mindfulness with kindness and precision, allowing students to progress steadily in their practice. Her approach focuses not only on guiding practitioners through postures but also on fostering overall well-being, both physically and mentally.

My approach to yoga blends movement, breath, and mindfulness. I love helping people connect with their bodies, playfully build strength, and cultivate a sense of calm. My classes focus on fluid, functional movement, and I encourage students to listen to their bodies and move in a way that feels good for them.

Expect a balance of strength and softness in my classes. Whether we're flowing through dynamic sequences in the morning or settling into restorative stretches in the evening, I aim to create a space where you feel supported, empowered, and more connected to yourself, each other and the world around you. I can't wait to share this experience with you and guide you through a journey of movement, breath, connectivity and nature.

## About Florence

My journey with yoga began during a time of burnout and imbalance - I was burning the candle at both ends. When I began practicing yoga regularly, I started to feel the physical benefits, but slowly overtime my whole outlook on life changed. During lock down I decided to train as a yoga teacher to both deepen my practice and learn how to share its healing lessons with others.
